CHAPTER IV.

Rainfall, Weather & Crops.

43. The monsoon of sumvat 1965 broke in early and the rainfall was phenomenal. It beat all previous known records of the State and was registered 58 inches and 19 cents vide Appendix XVII attached herewith.

44. Since its commencement in the first week of July 1908 there was but little break till the 5th of September 1908, thereby retarding operations of weeding and sowing of the Kharif harvest to a great extent and to this very fact may be attributed poor produce of the Kharif harvest. But sufficient moisture having been left in the soil and tanks and wells being full of water consequent on the exceptionally heavy rainfall, the Rabi sowings were done on a large scale and thus the shortage of Kharif was to some extent compensated by the extended sowings of the Rabi the outturn of which was good.

45. In this way the year Sumvat 1965 may fairly be said to be a good year in which the revenue of the State rose by Rs. 78,000/ as is evident from the Financial statement XXII attached herewith.

46. With the good outturn of Rabi, the prices of food grains fell considerably and the supply of grain became procurable everywhere in the State with ease and in abundance.

Appendix XVIII showing prices of food grains is herewith attached.

Wages and Labor.

47. During the year under report the labor market has been stationery and there has been no change in the rates of wages which stand as follows:—

Blacksmith	...	6 annas	...	a day
Carpenter	...	6 "	...	"
Cooly	"

Forest.

48. The forest department administration was reorganized last year and under the new order of things the department has worked with better results.

49. The revenue from and expenditure on forest is shewn in the table given below, from which it will be observed that there has been an improvement in the revenue and the rise though slow is steady as compared with past years.

Sumvat.		Income.		Expenditure.
1964	...	21300	...	4489
1965	...	23607	...	4040
Increase	...	2307
Decrease	449

50. The areas of grass in the State are sufficient to meet local requirements, hence no measures were considered necessary to be taken to extend the existing ones. Of course instructions are issued to all concerned from time to time urging upon them the advisability of storing surplus fodder and grass as a safeguard against years of famine and scarcity and it is a matter of satisfaction to note that these instructions are being acted upon.

Trade and Manufacture.

51. Though the year under notice was a good one but it was not so from the commercial point of view, as the crop of cotton which forms the backbone of the export trade of the State was damaged by the incessant and continuous rainfall of the year. This coupled with the fact that Sumvat 1965 was not a propitious year for matrimonial connections from the religious point of view and which in consequence was conspicuous by the total absence of any marriage celebrations among Hindus which form bulk of the population of the State, the import and export trade naturally fell, resulting in drop of revenue.

52. The following is a comparative statement of the revenue derived from customs during Sumvat 1964 and Sumvat 1965.

Sumvat.	Revenue.
1964 	Rs- 1,48,186
1965 	„ 2,04,895
Increase ...	<hr/> Rs- 56,709

53. The increase is not due to any actual rise in revenue but to the realization from the contractor of the arrears of revenue of past years.

The chief articles of export are:—

1. Cotton
2. Zeera
3. Oilseeds
4. Opium
5. Ghco
6. Hides of bullocks and buffaloes
7. Skins of sheep and goats

The mail intended for the district is sent by means of the State runners to the various Tehsils, where the Postal work is disposed of by the Tehsil authorities notably by the Mohorirs in addition to their own duties.

Mint.

58. For the purpose of converting Chaharashahi rupees into Katarshahi rupees the minting is in progress and the conversion is being effected.

General Condition of the State and people.

59. The general condition of the State and people has been good and their financial position is gradually improving. The agricultural population of the State has been especially benefitted by the dearness of prices of food grains that have been ruling these years.

60. The revenue derived from the sale of liquors and other intoxicant drugs is shewn in Appendix XXI herewith attached.

61. Appendix XX showing agricultural stock extant in the State is herewith attached. It will appear that every species is on the increase which is ascribed to lesser mortality and increased breeding among the cattle.

CHAPTER V.

Revenue and Finance.

62. The revenue and finance work of the State continues to be looked after by Mokhamsingot Hanuwant Singhji, under whose able guidance the work has been carried on very smoothly and satisfactorily.

63. On account of frequent lean years, the financial position of the State is not yet on a sound footing but is gradually improving as will appear from the figures of revenue given below:—

Sumvat. Income.

1964 Rs. 7,13,738

1965 Rs. 7,96,054

Increase Rs. 82,316

Owing to repayment of loan and settlement of unpaid accounts of the previous years, there was a deficit of Rs. 1,61,190 against a cash balance of Rs. 90,471 at the end of the year, i.e. the net deficit being Rs. 70,719 as will appear from the annexed financial statement XXII attached.

This deficit was as usual, met by advances received on State revenues.

64. The arrears of revenue outstanding including all realizable assets amount to Rs. 2,69,898 and the prospect of the recovery thereof depends on future good years.

65. The table given below shows the income and expenditure for sumvat 1965.

70. The Hospital was inspected by the Honorable Colonel Pinhey Agent Governor-General, Colonel Harington Chief Medical Officer, Rajputana. Major A. B. Drummond Political Agent and Captain De.
